"Jim Wallis argues persuasively that the financial crisis is also a moral crisis. A vivid storyteller and prophetic voice, he shows how the worship of markets has led us astray -- and how repairing the economy requires a moral awakening and a new commitment to the common good. This wise and hopeful book points us toward a new economy and a more spiritually satisfying public life." -- Michael J. Sandel, professor of government at Harvard University and New York Times bestselling author of Justice: What's the Right Thing to Do?
